

## **Volunteer Opportunities**

The LRCA partners with many area groups on projects (planting, environmental fairs, community events) throughout the Lackawanna River Watershed. We're active in area school field trips and facilitate a science-based regional river water quality assessment program called RiverWatch.

LRCA volunteers like to get outdoors! Tours and hikes along the Lackawanna River and its trails throughout the Watershed are usually accompanied by interpretation that is both scientifically and historically informed.

- \* River & Trail Cleanups
- \* RiverWatch - water quality monitoring, biology and chemistry studies
- \* Educational Outreach Program Research
- \* Community Informational Projects
- \* River and Trail Policing - Adopt-A-Trail
- \* Photography of the Lackawanna River Watershed
- \* Newsletter Article Submission
- \* Prepare and Distribute Flyers
- \* Historical Silkman House – gardens and trail
- \* Special Events Planning - throw a party and raise funds for the LRCA!
- \* Kosciuska Healing Garden – help bring back and preserve history!
- \* Office Assistance and Special Projects – donate your special skills
- \* Internships in environmental, communications and marketing
